## Early Spring Predicted by Old Weather Prophets.

Present indications are that Winter will soon be gone. In a few weeks the sweet, warm sunshine will quicken the earth, and the trees, the flowers and the birds will tell us that the mantle of frost and snow has been cast aside and balmy winds will whisper of the Golden Summer that is to follow. This will be the last Winter on earth for many a human soul. Diseased organs and pronounced blood will not respond to the changing seasons unless given assistance. In 1902, 8,756,000 cases of blood, heart trouble, catarrh, nervousness, rheumatism, constipation and kidney disease were cured by Dr. Burkhart's Vegetable Compound, 25 cents. All Druggists.

## The "Ad" Man Says:

Any merchant who is not investing a certain portion of his earnings in publicity is making a serious mistake. It is not so important about the amount spent, as that a sum however small, should be set aside for the purpose of exploiting his goods.

A writer on the psychological aspect of advertising says that no man knows what impressions have been made on his mind by newspaper advertisements; but when he happens to want a thing the name of an advertiser and perhaps an effective catch line will instantly occur to him.—Philadelphia Record.

The fact should never be overlooked that the mightiest of the earth pass away and that with the moving spirit of the times people not only cease to talk of them, but soon forget that they have forgotten. To think that advertising indulged in for part of the year will leave a reminder in the minds of the public for the balance of the year is a besetting business sin.—Bicycling World. THE AD MAN.
